YOKESH KATRAJ

MERN STACK DEVELOPER

Coimbatore, Tamil Nadu, India | +91 9042857947 | yokeshkatraj12102002@gmail.com | linkedin.com/in/yokesh12

2 Years Total Professional Experience | React.js | Node.js | MongoDB | Production Deployment | AI Tools

Professional Summary

MERN Stack Developer with 2 years of professional experience, including 3 months of internship experience and 1.8 years of full-time development. Experienced in building and maintaining production web applications using React.js, JavaScript, Node.js, Express.js and MongoDB. Strong in REST APIs, API integration, JWT authentication, responsive web design, debugging, technical support and production support. Hands-on experience with Linux/VPS deployment, Nginx, PM2, SSL/HTTPS and Git/GitHub version control. Experienced across EdTech, CRM/staff management, institutional websites, AI chatbot integration and business web applications. Motivated developer with strong communication, teamwork, reliability, problem-solving and end-to-end ownership.

Professional Experience

FULL STACK DEVELOPER | Profenaa Infotech, Coimbatore

Feb 2025 – Present | 1.8 Years Full-Time Experience

Previous Internship | 3 Months

- Engineered production web applications across 5 project areas using React.js, JavaScript, Node.js, Express.js and MongoDB.
- Developed and maintained AmCurio, a full-stack EdTech platform covering responsive UI, API integration, database workflows and production support.
- Built CRM / Staff Management functionality covering projects, tasks, authentication, attendance and GPS/location tracking, supporting end-to-end business workflows.
- Delivered eCADD Global institutional website features including AI chatbot integration, responsive UI, API integration and live deployment support.
- Built PYBOT AI Solutions 3D animated website with interactive frontend experiences, responsive implementation and production-ready web UI.
- Developed multiple business landing and portfolio websites using reusable components, responsive web design, forms, SEO and performance improvements.
- Developed and debugged REST APIs, API integration, JWT authentication/authorization and MongoDB/Mongoose workflows using Postman and curl.
- Deployed frontend and backend applications on Linux/VPS environments using Nginx, PM2, SSL/HTTPS, environment variables, domains and subdomains.
- Applied prompt engineering and AI-assisted development tools to accelerate research, implementation, debugging, documentation and solution development.
- Diagnosed and resolved production issues involving APIs, services, configuration and deployment while providing technical support and production support for live applications.
- Owned end-to-end delivery from requirements and UI implementation through frontend, backend, database, AI integration, deployment and production support; translated business requirements into scalable web applications.

Selected Production Projects

- AmCurio – EdTech Platform | React.js, Node.js, Express.js, MongoDB
- CRM / Staff Management & GPS Tracking | React.js, Node.js, Express.js, MongoDB, JWT
- eCADD Global Institutional Website + AI Chatbot | React.js, Node.js, AI/API Integration
- PYBOT AI Solutions – 3D Animated Website | React.js, JavaScript, Interactive Web UI
- Business Landing & Portfolio Websites | React.js, JavaScript, HTML5, CSS3, SEO, Responsive Design

Technical Skills

Frontend Development: React.js, JavaScript ES6+, HTML5, CSS3, React Router, Responsive Web Design, Axios, Web Applications

Mobile Development: React Native (Currently Learning), Cross-Platform App Development, API Integration

Backend Development: Node.js, Express.js, REST APIs, RESTful APIs, Middleware, JWT Authentication, Authorization, API Integration, Technical Support

Database & Data: MongoDB, Mongoose, CRUD, Data Modeling, Aggregation Basics, Scalability

AI & Productivity: Prompt Engineering, AI-Assisted Development, AI Tools, AI Chatbot Integration, Technical Research

Deployment & DevOps: Linux, VPS, Nginx, PM2, SSL/HTTPS, DNS, Subdomains, Environment Variables, Production Support, Reliability

Development Tools: Git, GitHub, Version Control, Postman, VS Code, npm, curl

Core Strengths: Full-Stack Development, REST API Development, Production Deployment, Technical Support, Troubleshooting, Debugging, Problem Solving, Communication, Teamwork, Reliability, Motivation, End-to-End Ownership

CAREER DIRECTION & AI FOCUS

- Long-term goal: grow into an AI Full Stack Developer capable of designing complete AI-powered products from frontend and backend architecture to model/API integration and production deployment.
- Interested in building proprietary AI applications and conversational systems, with a long-term ambition to develop an independent AI assistant platform inspired by products such as ChatGPT.
- Continuously expanding skills in AI, prompt engineering, LLM application development, AI agents, model/API integration and scalable full-stack architecture.

Education

B.Sc. Computer Technology | Kongunadu College of Arts and Science, Coimbatore | 2020–2023

Languages

Tamil — Fluent | English — Fluent
